ABOUT ME

Senior Cloud Solutions Architect focused on all aspects of Cloud Security.

Work Experience

2021-05-01 TO 2023-05-01

Solution selling, focusing on F5 Distributed Cloud, positioning multi-cloud networking, application security and kubernetes based pipelines. In the SME overlay role I was responsible for account discovery, product presentations, demonstrations, and proof of concept, including automation with terraform across multiple clouds with on-prem datacenters. In the cloud overlay team I was responsible for architecting CICD pipeline integrations including github-actions, docker containers, argood, jenkins, nginx ingress controller. Cloud based Web Application Firewalls, API protections, and networking application delivery with GSLB as well as anycast architectures.

Covering financial services in North America

Multi Cloud Networking

Cloud Automation with Terraform

Web App and API Protection

2020-07-01 TO 2021-05-01

Authoring, and publishing technical documentation supporting service providers technology in OpenShift.

Authoring Technical Documentation
