Summary

Senior Cloud Solutions Architect focused on all aspects of Cloud Security.

Experience

05/2021 - 05/2023

F5 Distributed Cloud Services are SaaS-based security, networking, and application management services that enable customers to deploy, s ecure, and operate their applications in a cloud-native environment wherever needed– data center, multi-cloud, or the network or enterprise edge.
Cloud Solutions Engineer

Solution selling, focusing on F5 Distributed Cloud, positioning multi-cloud networking, application security and kubernetes based pipelines. In the SME overlay role I was responsible for account discovery, product presentations, demonstrations, and proof of concept, including automation with terraform across multiple clouds with on-prem datacenters. In the cloud overlay team I was responsible for architecting CICD pipeline integrations including github-actions, docker containers, argocd, jenkins, nginx ingress controller. Cloud based Web Application Firewalls, API protections, and networking application delivery with GSLB as well as anycast architectures.

- Covering financial services in North America
- Multi Cloud Networking
- Cloud Automation with Terraform
- Web App and API Protection

07/2020 - 05/2021

Technical Marketing Manager - Service Providers

Authoring, and publishing technical documentation supporting service providers technology in OpenShift.

- Authoring Technical Documentation
- Content As Code
- Restructured Text
- Containerized Content Publishing

07/2018 - 07/2020

Enterprise Application Delivery and Security, including Web Application Firewalls, and Datacenter firewalls
Senior Solutions Engineer - Enterprise Commercial

Working with large enterprise customers in the Greater Toronto Area to help architect hybrid cloud architecture using F5 technology. Team collaboration, presenting technical labs and product demonstration in online webinar format as well as large in-person group events.

- Enterprise Commercial
- Hybrid Cloud Architecture
- Devops
- Automation with Ansible
- Web Appplication Firewall
- VPN
- iRules

06/2014 - 07/2018

F5 BIG-IP Next CNFs enable a cloud-native solution that is secure, automated, and scalable, critical for the transition to 5G networks.
Field Sales Engineer - Service Providers

Solution selling for Canadian Service Providers I have experience with carrier grade firewalls, wireline services, web application firewalls, and application delivery at scale. Architecting carrier-grade-NAT for mobility networks, architecting inspection platform enabling multi-vendor security chains including DLP/NGWF/IDS for connected car, connected city, and large IoT networks. Deploying massive distributed VPN platforms.

- Service Providers
- CGNAT
- IoT Security Chaining

- OpenStack
- OpenShift
- Web Appplication Firewall
- DLP

Canada's leading IT solution provider, focused on security, infrastructure, and cl
Sales Engineer

Responsible for helping build North Americas largest F5 partner, including product sa
Authorized Trainer, delivering customer presentations for sales as well as public speal
five years I delivered authorized F5 training classes including ASM, GTM, LTM, and A
customers.

- NetApp
- VMWare
- F5 Bigip
- Certified F5 Trainer
- Pre Sales
- Professional Services
- Customer facing speaking events
- Technical demonstrations

One of the largest and oldest steel producer in North America.
Linux System Administrator

Building and consolidating multi-tenant data centers. Deploying F5 with Linux based
Exchange running on highly available VMware servers with NetApp storage. Working
opportunity to be involved in every aspect of datacenter management from facilities
networking and virtualization.

- NetApp
- VMWare
- F5 Bigip
- Microsoft Exchange
- Active Directory
- Cisco VPN
- Cisco Routers/Firewalls

One of the largest and oldest steel producer in North America.
Render Farm Engineer

Created a high performance rendering cluster based on Linux, development of autom
resolution video for use with feature length movies and television. Full Stack architec
based networks complete with network architecture, operations and security.

- NAS
- Maya Render
- Houdini Render
- Astaro Firewall

Global, facilities-based telecommunications service provider
UNIX Administrator

Responsible for architecting shared web hosting platforms, storage. Developing busin
customers of acquired companies. During the time at Primus I participated in rolling c
solution in Canada, as well as designing and building high performance, scalable, and
application infrastructure.

- NetApp
- Linux
- Oracle
- LDAP
- Shell Scripting
- Perl programming
- PHP programming
